Includes list of members, 1882-1902 and proceedings of the annual meetings and various supplements. She's his best friend, and the woman he never stopped loving... To this day, Isaac McKnight still has no idea why the perfectly-imperfect-woman-for-him put an end to their relationship out of the blue. He made sure they stayed friends though. But now, it's a year later and he and Xoey are steadily getting sucked deeper into buddy-zone galaxy, with its dangerous proximity to watch-me-settle-down-with-someone-else abyss. That is...until one drunken confession changes everything. He's the world's greatest ex, and the man she can't risk losing... For Xoey Montenegro, history has taught her that sometimes, it's Prince Charming who does the vanishing. So, as far as tequila-fueled plans for her still-unrecovered love life go, a match-finding formula analyzing the exes responsible for her most epic 'ohs' seems brilliant. The only problem with her genius man-uation, however, is the one ex she never truly got over. Her best friend Isaac. "Every time I pick up one of Violet's stories, I know I'll be in for a heartfelt, emotional, and FUN read. Her heroes are just so swoony and sweet. Enjoy! :) The use of chemistry in archaeology can help archaeologists answer questions about the nature and origin of the many organic and inorganic finds recovered through excavation, providing valuable information about the social history of humankind. This textbook tackles the fundamental issues in chemical studies of archaeological materials. Examining the most widely used analytical techniques in archaeology, the third edition of this comprehensive textbook features a new chapter on proteomics, capturing significant developments in protein recognition for dating and characterisation. The textbook has been updated to encompass the latest developments in the field. The textbook explores several archaeological investigations in which chemistry has been employed in tracing the origins of or in studying artefacts, and includes chapters on obsidian, ceramics, glass, metals and resins. It is an essential companion to students in archaeological science and chemistry, as well as to archaeologists, and those involved in conserving human artefacts. Dry whiskey, Divine herb, Devil's root, Medicine of God, Peyote: for some people, to use it is to hear colors and see sounds. For many Native Americans, it brings an ability to reach out of their physical lives, to communicate with the spirits, and to become complete. For chemists, pharmacologists, and psychiatrists, the plant is fascinating in its complexity and in the ways its chemicals work upon the human mind. What is it in peyote that causes such unusual effects? Can modern medical science learn anything from Native Americans' use of peyote in curing a wide variety of ailments? What is the Native American Church, and how do its members use peyote? Does anyone have the legal right to use drugs or controlled substances in religious ceremonies? Within this volume are answers to these and dozens of other questions surrounding the controversial and remarkable cactus. Greatly expanded and brought up-to-date from the 1980 edition, these pages describe peyote ceremonies and the users' experiences, and also cover the many scientific and legal aspects of using the plant. Well written, informative, comprehensive, and enlightening, the book will be welcomed by counselors, anthropologists, historians, physicians, chemists, lawyers, and observers of the contemporary drug scene, as well as by interested general readers. The Texas Gulf Coast is one of the most outstanding birding locations in North America. From whooping cranes to sandhill cranes, ducks, geese, raptors and the hundreds of song birds that migrate every year to the Texas Gulf make this a birder's paradise. There are numerous public sites that make for easy birding. Each year, during the last week of February, there is a Whooping Crane Festival in Port Aransas and Mustang Island that attracts thousands of birders. It features workshops, demonstrations, speakers, and many guided birding trips to local birding locations. Jim Foster is a noted birder. He describes each birding trail with a list of key birds, the best time of year to visit each trail, the type of terrain, size, and complete directions to each area, many with maps of each trail. Texas is one of the four best birding states in the U.S. with over 2.5 million resident birders and thousands of non-resident birders who visit the state each year. Currently there are over 51 million birders in the United States and over 20 million travel out of their state each year to view birds. *Birding Trails Texas: Gulf Coast* is a must book for all birders. Pp. 65. Includes: OSHA summaries, OSHA self-inspection checklists, safety guidelines, buyer's guides, monthly safety training topics, safety technology series. Distinguished by its slender vertical branches, which resemble the tubes of a pipe organ, and growing to the imposing height of 15 to more than 30 feet, it's obvious how the organ pipe cactus got its name. In the United States, these spectacular and intriguing plants are found exclusively in a small area of the Sonoran Desert in the southwestern corner of Arizona. With a landscape marked by sharp, rocky slopes and daytime highs in the summer reaching 110 degrees Fahrenheit, the region is inhospitable for most ordinary life, whether plant or animal. But the organ pipe cactus is far from ordinary. Although it is the most common columnar cactus, it is so unusual in the United States that it is only one of three cacti to have a national preserve established to protect it. In this regard, it joins a select group of plants—including Joshua trees, redwoods, and sequoias—upon which that honor has been conferred. In this beautifully illustrated, large-format book, David Yetman provides an in-depth and comprehensive look at these intriguing and picturesque plants that most Americans will never have the opportunity to see. Chapters explore their ethnobotanical uses, their habitat, their distribution, and special conditions required for their germination, establishment, growth, and survival. Yetman also places the organ pipe in perspective as a member of a genus with at least twenty-three species, ranging from the prostrate *Stenocereus eruca* of Baja California to the 50-foot high giant *S. chicalapensis* of the coast of Oaxaca. Romance has met its most unlikely match-up... Luke Bradford is a chocolatier on a mission. After moving his chocolate shop, and newly single life, to the quirky town of Cactus Creek, Luke wants nothing more than to devote all his energy into making his business a success-by taking the romance market by storm. But his grand plans get thrown for a loop when

he locks horns with the feisty beer-brewing beauty next door who calls his 'romantic idealism' a load of fairytale bull. Soon, driving the woman sparking nuts becomes another wickedly fun priority he simply can't get enough of. In his defense, she's addictively easy to incite...and plain impossible to resist. Beloved local brewmaster Dani Dobson is beyond riled up. It's bad enough the new shop owner in town comes locked and loaded with both a distractingly rugged charm and sexy flashing dimples, but the whole only-in-the-movies variety of romance he's selling-the kind her world has been crushed by before-is really doing a number on her allergy to unrealistic cliches. What's worse, he's created an annoyingly clever ad campaign that dubs 'beer joints' like hers as the "cave where romance goes to hibernate." The nerve of that man. Combustible chemistry or not, damn it, this means war. The stakes...very likely, her heart." He's a better fighter A fighter to the core, Hudson Reyes has collected enough battle scars now to last several lifetimes. But after his combat injuries retire him from the life he wasn't ready to give up, Hudson finds himself spending the carbon copy days of his new career as a Hollywood fight scene and weapons specialist just doing what he knows best: surviving. Until he meets her. The one woman who makes him want to live again. With wounds as deep as his own, she's a scrappy little thing--an angel-faced paradox that comes as a package deal with an offbeat town of admirably protective, but downright nosy folks. And a wicked roundhouse kick that's become intimately familiar with his head. ...but she has all the weapons. An antique arms authenticator by day and a self-defense instructor by night, Liana Lin has made a living turning the unthinkable demons of her past into the passions that fuel, and fill, her life. So when the unjustly handsome man she's been unable to stop thinking about literally takes her to the mat with martial arts styles unlike anything she's ever seen--pinning her with a molten hot stare that melts her like a marshmallow trapped between a graham cracker and a chocolate square--Lia flips into no-holds-barred fight mode. Because if one man could find a way to disarm her carefully-built defenses, it'd be him. Now if only they could stop sparring long enough to find out... Grady Richardson is used to folks questioning why he never went pro. Sharing genes with a family of NFL greats, it should've been the natural decision. But instead, he chose coaching. Back when he was getting hit with hard life lessons for all his wrong choices, it was the first one he'd made that had felt so right. Moving to the oddball town of Cactus Creek is now officially the second. Here, folks care less about his name and more what the local auto shop teacher--daughter of the coach he's replacing--thinks of him. It's refreshingly different. She's refreshingly different. An opinionated powder keg with mind-melting curves and a garage full of tools he's sure she'd like to hurl at him half the time, Sienna Whitman is the president and sole member of his non-fan club. And lately, it seems all their heated debates over his high-scoring offense dominating her old school defense is starting to mean something a whole lot different in his head... Sienna Whitman is used to being kept on the sidelines. Cactus Creek's town coaching legend--just plain 'Dad' to Sienna--could've recommended her as an assistant coach to his successor upon his retirement. But thanks to that pesky lack of a Y chromosome on her resume, here she is, back as overqualified team statistician, secretly feeding field plays to her coaching buddies through her phone yet again. Now, it wouldn't be half bad if not for the new head coach continuously pushing her buttons at every turn. Mr. All American good looks with that 'new school offense' of his is driving her crazy. And not just because he's under the very mistaken notion that she's a sex addict in rehab, thanks to the opposite-of-quick thinking by her partners in crime on the field--seriously, if only her Bluetooth had a kill function. No, it's the unprecedented realization that just being around Grady makes Sienna want that rehab center's number for real. On speed dial. Hell, it's going to be a long season... Author Note: Thank you all SO much for your patience these last three and a half years while I've been on medical leave receiving treatments and surgeries for multiple organ problems. I love you all to pieces and can't WAIT for you to read Grady & Sienna's fun and feel-good romcom (the chemistry between these two is just insane)! <3 THE CACTUS CREEK SERIES Love, Chocolate, and Beer [Luke & Dani] Love, Diamonds, and Spades [Rylan & Quinn] Love, Tussles, and Takedowns [Hudson & Lia] Love, Exes, and Ohs [Isaac & Xoey] Love, Sidelines, and Endzones [Grady & Sienna] All the Cactus Creek novels are standalone novels with feel good HEAs. Enjoy! :) -- A USA TODAY best-seller -- Brewmaster and town sweetheart Dani Dobson is officially declaring war against her hot, maddening new menace of a neighbor--and his shop. How the man manages to provoke her so much is beyond her. But he does, and really, she's just picking up the gauntlet he tosses her way. The terms of their little throwdown? Her business versus his in the arena of romance. And the stakes? Very likely, her heart. Chocolatier and town newcomer Luke Bradford loves his shop's new home. Partly because he couldn't ask for a better fresh start for both his professional and personal life, and partly (okay, mostly) because he gets to lock horns with the feisty beer-brewing beauty next door, and effectively push all her buttons on a fairly regular basis. To be fair, in his defense-- Just kidding. He has no defense. As far as the meddling matchmakers in this quirky little town are concerned, this is going to be their most unlikely (and interesting) pairing yet... "Violet Duke always writes such compelling, delightful characters who manage to pull you in and make you feel a part of their lives." -- #1 New York Times Bestselling Author Barbara Freethy ♥ AUTHOR NOTE ♥ Be forewarned, this slow-burn romcom is definitely sweeter (and longer) than my other books (but there is still some on-page steam, as well as a few curse words--no f-bombs though, per usual). A book about a brewmaster and chocolatier battling over Valentine's Day supremacy? Yep, it was a given I was going to go all-out on the feel-good romance for this one. :) So if you're in the mood for a light and fun love story (with some of my token laugh-and-cry Violet Duke-ness, of course) between two stubbornly romantic characters who work hard for their happily ever after, this is the book for you! xoxo ♥ V THE CACTUS CREEK SERIES Love, Chocolate, and Beer [Luke & Dani] Love, Diamonds, and Spades [Rylan & Quinn] Love, Tussles, and Takedowns [Hudson & Lia] Love, Exes, and Ohs [Isaac & Xoey] All the Cactus Creek books are standalone novels with feel-good HEAs. :) Enjoy!
