Margaret Marshall Saunders (May 13, 1861 - February 15, 1947) was a prolific Canadian writer of children's stories and romance novels, a lecturer, and an animal rights advocate. She was an active member of the Local Council of Women of Halifax. Saunders was born in the village of Milton, Nova Scotia, though she spent most of her childhood in Berwick, Nova Scotia where her father was a Baptist minister. Saunders is most famous for her novel *Beautiful Joe*. It tells the true story of a dog from Meaford, Ontario that had his ears and tail chopped off by an abusive owner as a puppy, but is rescued by a Meaford family whose lives he later saves. The story is written from the dog's point of view, and is often compared to *Black Beauty* which was released a few years earlier. Develops a holistic and gender-aware understanding of Clara Schumann as pianist, composer and teacher in nineteenth-century Germany. In *Pet Projects*, Elizabeth Young joins an analysis of the representation of animals in nineteenth-century fiction, taxidermy, and the visual arts with a first-person reflection on her own scholarly journey. Centering on Margaret Marshall Saunders, a Canadian woman writer once famous for her animal novels, and incorporating Young's own experience of a beloved animal's illness, this study highlights the personal and intellectual stakes of a "pet project" of cultural criticism. Young assembles a broad archive of materials, beginning with Saunders's novels and widening outward to include fiction, nonfiction, photography, and taxidermy. She coins the term "first-dog voice" to describe the narrative technique of novels, such as Saunders's *Beautiful Joe*, written in the first person from the perspective of an animal. She connects this voice to contemporary political issues, revealing how animal fiction such as Saunders's reanimates nineteenth-century writing about both feminism and slavery. Highlighting the prominence of taxidermy in the late nineteenth century, she suggests that Saunders transforms taxidermic techniques in surprising ways that provide new forms of authority for women. Young adapts Freud to analyze literary representations of mourning by and for animals, and she examines how Canadian writers, including Saunders, use animals to explore race, ethnicity, and national identity. Her wide-ranging investigation incorporates twenty-first as well as nineteenth-century works of literature and culture, including recent art using taxidermy and contemporary film. Throughout, she reflects on the tools she uses to craft her analyses, examining the state of scholarly fields from feminist criticism to animal studies. With a lively, first-person voice that highlights experiences usually concealed in academic studies by scholarly discourse—such as detours, zigzags, roadblocks, and personal experience—this unique and innovative book will delight animal enthusiasts and academics in the fields of animal studies, gender studies, American studies, and Canadian studies. The first Canadian book to sell 1,000,000 copies, the novel was written in 1893 by Margaret Marshall Saunders and was the winning entry submitted to a literary contest sponsored by the American Humane Education Society. Saunders first heard the story of the dog, who had actually been abused and then rescued as depicted in the book, from her sister-in-law, Louise Moore. Louise's father, Walter Moore, had rescued the dog in 1890. Today the town of Meaford is home to a park and statue honoring the real Beautiful Joe, and a private heritage society was created in 1994 to preserve the Moore home and establish a museum. Written as an autobiography from the dog's point of view, the book includes a reference in the first page to Black Beauty, which had also used that device, as "a little book that she [my mistress] says is the story of a horse's life." Joe then explains that he has undertaken the writing of his life's story in the belief that it will please his mistress. The story, which the author relocates to a small town in Maine, recounts numerous adventures of Joe and the other animals and people in and around the "Morris" household and the little barn and barnyard that serves as a playground for children and a home for a variety of animals. Above all, "Beautiful Joe" is a call for an end to cruelty to animals, a message which it delivers effectively in the course of a story enjoyed and loved by generations of readers young and old. Records Marshall's trips by foot, boat and dogsled into wilderness areas north of the Arctic Circle in the 1930's. An "immersive, humanizing, and demystifying" (Charles Blow, New York Times) look at the final hours of Dr. King's life as he seeks to revive the non-violent civil rights movement and push to end poverty in America. At 10:33 a.m. on April 3, 1968, Dr. Martin Luther King, Jr., landed in Memphis on a flight from Atlanta. A march that he had led in Memphis six days earlier to support striking garbage workers had turned into a riot, and King was returning to prove that he could lead a violence-free protest. King's reputation as a credible, non-violent leader of the civil rights movement was in jeopardy just as he was launching the Poor Peoples Campaign. He was calling for massive civil disobedience in the nation's capital to pressure lawmakers to enact sweeping anti-poverty legislation. But King didn't live long enough to lead the protest. He was fatally shot at 6:01 p.m. on April 4 in Memphis. Redemption is an intimate look at the last thirty-one hours and twenty-eight minutes of King's life. King was exhausted from a brutal speaking schedule. He was being denounced in the press and by political leaders as an agent of violence. He was facing dissent even within the civil rights movement and among his own staff at the Southern Christian Leadership Conference. In Memphis, a federal court injunction was barring him from marching. As threats against King mounted, he feared an imminent, violent death. The risks were enormous, the pressure intense. On the stormy night of April 3, King gathered the strength to speak at a rally on behalf of sanitation workers. The "Mountaintop Speech," an eloquent and passionate appeal for workers' rights and economic justice, exhibited his oratorical mastery at its finest. Redemption draws on dozens of interviews by the author with people who were immersed in the Memphis events, features recently released documents from Atlanta archives, and includes compelling photos. The fresh material reveals untold facets of the story including a never-before-reported lapse by the Memphis Police Department to provide security for King. It unveils financial and logistical dilemmas, and recounts the emotional and marital pressures that were bedeviling King. Also revealed is what his assassin, James Earl Ray, was doing in Memphis during the same time and how a series of extraordinary breaks enabled Ray to construct a sniper's nest and shoot King. Original and riveting, Redemption relives the drama of King's final hours. Following The Soldier's Return, heralded as "a novel written in fine steel sentences and granite paragraphs" by the Washington Post, and the equally brilliant A Son of War, Melvyn Bragg brings "one of the finest

sagas of postwar Britain” (London Sunday Telegraph) to a stunning conclusion. Set in the 1950s, this absorbing novel follows the intertwined fates of people crossing boundaries in their lives. Alive with a wide cast of characters, *Crossing the Lines* vividly portrays the spirit and atmosphere of the mid-century and the profound changes taking place at the time, in morals, religion, music, and social class. Moving and evocative, this masterly novel and the two that have preceded it are rightfully hailed as contemporary classics. Based on true events, *Beautiful Joe* tells the story of a dog that is rescued from the hands of a cruel master who removes his ears and tail in a fit of anger. The Morris family comes to his aid and carefully nurses the dog back to health, giving him the name, Beautiful Joe. How is this book unique? Beautiful Joe was a dog from the town of Meaford, Ontario, whose story inspired the bestselling 1893 novel *Beautiful Joe*, which contributed to worldwide awareness of animal cruelty. The real Beautiful Joe was an Airedale-type dog. He was medium-sized, brown, and described as likely being part bull terrier and part fox terrier. He was also described as a mongrel, a cur, and a mutt. He was originally owned by a local Meaford man, who cruelly abused the dog to the point of near death, and even cut off his ears and tail. Walter Moore, father of Louise Moore, rescued the dog in 1890, from what likely would have been a violent and painful death. In 1892, Margaret Marshall Saunders (1861-1947), first learned about Beautiful Joe when she visited her brother and his wife, Louise Moore. Saunders was so touched by Joe's story that she wrote a novel-length, fictionalized, autobiographical version of it, entitled *Beautiful Joe*. Margaret Saunders relocated the story to a small town in Maine and changed the family's name from Moore to Morris to win a literary contest sponsored by the American Humane Education Society. The book was first published in 1893. By 1900, over 800,000 copies sold in the U.S., 40,000 in Canada and 100,000 in the United Kingdom. 'A masterpiece... But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their

ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names. Saunders chose to write Beautiful Joe as an "autobiography" and tell the story from Beautiful Joe's viewpoint, and in her imagined version of Beautiful Joe's own words. While it was not the first book to tell a story from an animal's viewpoint - Black Beauty by Anna Sewell was already on its way to becoming classic literature by then - it was still an uncommon narrative device. This unusual viewpoint allowed the reader into Beautiful Joe's mind, and inarguably led the reader to feel more sympathy toward the narrator than if the material had been presented in a straightforward and documentative manner. Also, Saunders believed that she would not be taken seriously as a writer using the obviously female name Margaret Saunders, so she wrote using the variant name Marshall Saunders..... worldwide attention. It was the first Canadian book to sell over a million copies, and by the late 1930s had sold over seven million copies worldwide. It was also translated into many languages, including Esperanto. About Beautiful Joe, Marshall Saunders commented, "I have had the honour of leading the old Ontario dog around the world on a chain of translations and rejoice in the report that he has become quite a propagandist for humanitarianism.."..... In 1892, in the town of Meaford, Ontario, Margaret Marshall Saunders was introduced to Beautiful Joe -a mongrel dog that had been cruelly mutilated by its owner. The author was inspired to write this true story to emphasize the plight of domestic animals everywhere. Upon publication, Beautiful Joe quickly became a Canadian classic, enchanting readers of all ages. Although Margaret Saunders relocated Beautiful Joe to a fictional town in Maine, readers know the story is actually based in Meaford, where a park and monument have been dedicated to the dog's memory. This tale of tender devotion between a dog and his owners is a timeless classic that brought Halifax writer Margaret Marshall Saunders much acclaim. At the time of her death in 1947 she was described as 'Canada's Most Revered Writer.' Marshall Saunders "Beautiful Joe" (1893) is a remarkable classic exploring issues of animal cruelty told from the point of view of one dog, Joe. This work was an instant success upon its release in Canada, becoming the first book to sell over a million copies in that country. Written as a kind of dog's autobiography, the work was innovative in its narrative technique. Often compared to Anna Sewell's "Black Beauty", the novel tracks the true story of a terrier in Maine named Joe. As Joe tells his story, the reader quickly meets his cruel owner Jenkins. Jenkins mistreatment grows more intense over time. The reader develops a deep sympathy for Joe and his canine counterparts on account of its narrative point of view. Joe's journey through abuse towards being rescued is a harrowing account not to be missed by the animal lover. Our story starts with Pussy Black Face introducing himself - "My name is Pussy Black-Face, and I am a naughty young kitten. I wish I were good like my mother. She is the best cat that I ever saw. I try to be like her, and sometimes I succeed, but most times I don't." Known to all as Black Face, this cat is a mischievous kitten who does things most cats do, like sleep, eat and hog the warmth of the fire and sleep even more. Black Face and his friends are looked after by Mrs. Darley. She is a widow with two adopted children--Billy and Margaret. Black Face has a sister named Serena, and a brother called Jimmy Dory. But, Black Face is not the first cat which most people choose to stroke or pick up to cuddle. Neither is Black face the most agile cat. He is the most adventurous of the siblings, and is forever knocking over ornaments, and other precious nick-knacks, quite often breaking them. As the summer came on, Mrs Darley opened up the house and Black Face and his friends were allowed to explore the pavement while their mother and father sat on the wide window sill watching. "Beware of the naughty boys," his mother warned. The kittens began to play with a pebble and chase it along

the pavement. Before they realised it they had lost sight of the house and chased the pebble right into the hands of the very boys their mother had warned them about. And so began the adventures of Black Face and his friends..... But what happened next you ask? Well you will have to download and read this book to find out for yourselves! We still use "McCarthyism" to stand for outrageous charges of guilt by association, a weapon of polarizing slander. From 1950 to 1954, McCarthy destroyed many careers and even entire lives, whipping the nation into a frenzy of paranoia, accusation, loyalty oaths, and terror. When the public finally turned on him, he came crashing down, dying of alcoholism in 1957. Only now, through bestselling author Larry Tye's exclusive look at the senator's records, can the full story be told. Demagogue is a masterful portrait of a human being capable of immense evil, yet beguiling charm. McCarthy was a tireless worker and a genuine war hero. His ambitions knew few limits. Neither did his socializing, his drinking, nor his gambling. When he finally made it to the Senate, he flailed around in search of an agenda and angered many with his sharp elbows and lack of integrity. Finally, after three years, he hit upon anti-communism. By recklessly charging treason against everyone from George Marshall to much of the State Department, he became the most influential and controversial man in America. His chaotic, meteoric rise is a gripping and terrifying object lesson for us all. Yet his equally sudden fall from fame offers reason for hope that, given the rope, most American demagogues eventually hang themselves. David Champlin is a black man born into poverty in Depression-era New Orleans who makes his way up the ladder of success, only to sacrifice everything to lead his people in the civil rights movement. Font adjustments & biography included Unabridged (100% Original content) Illustrated About Beautiful Joe by Margaret Marshall Saunders One of the most beloved stories in the English language, originally published as a novel in 1894, "Beautiful Joe" is based on the true story of a dog who lived in Meaford in southern Ontario. The first Canadian book to sell 1,000,000 copies, the novel was written in 1893 by Margaret Marshall Saunders and was the winning entry submitted to a literary contest sponsored by the American Humane Education Society. Saunders first heard the story of the dog, who had actually been abused and then rescued as depicted in the book, from her sister-in-law, Louise Moore. Louise's father, Walter Moore, had rescued the dog in 1890. Today the town of Meaford is home to a park and statue honoring the real Beautiful Joe, and a private heritage society was created in 1994 to preserve the Moore home and establish a museum. Written as an autobiography from the dog's point of view, the book includes a reference in the first page to Black Beauty, which had also used that device, as "a little book that she [my mistress] says is the story of a horse's life." Joe then explains that he has undertaken the writing of his life's story in the belief that it will please his mistress. The story, which the author relocates to a small town in Maine, recounts numerous adventures of Joe and the other animals and people in and around the "Morris" household and the little barn and barnyard that serves as a playground for children and a home for a variety of animals. Above all, "Beautiful Joe" is a call for an end to cruelty to animals, a message which it delivers effectively in the course of a story enjoyed and loved by generations of readers young and old. Pulitzer Prize Finalist: "A stunning work of biography" about three little-known New England women who made intellectual history (The New York Times). Elizabeth, Mary, and Sophia Peabody were in many ways the American Brontës. The story of these remarkable sisters—and their central role in shaping the thinking of their day—has never before been fully told. Twenty years in the making, Megan Marshall's monumental biography brings the era of creative ferment known as American Romanticism to new life. Elizabeth Peabody, the oldest sister, was a mind-on-fire influence on the great writers of the era—Emerson, Hawthorne, and Thoreau among them—who also published some of their earliest works; it was she who prodded these newly minted Transcendentalists away from Emerson's individualism and toward a greater connection to others. Middle sister Mary Peabody was a passionate reformer who finally found her soul mate in the great educator Horace Mann. And the frail Sophia, an admired painter among the preeminent society artists of the day, married Nathaniel Hawthorne—but not before Hawthorne threw the delicate dynamics among the sisters into disarray. Casting new light on a legendary American era, and on three sisters who made an indelible mark on history, Marshall's unprecedented research uncovers thousands of never-before-seen letters as well as other previously unmined original sources. "A massive enterprise," The Peabody Sisters is an event in American biography (The New York Times Book Review). "Marshall's book is a grand story . . . where male and female minds and sensibilities were in free, fruitful communion, even if men could exploit this cultural richness far more easily than women." —The Washington Post "Marshall has greatly

increased our understanding of these women and their times in one of the best literary biographies to come along in years.” —New England Quarterly
