Lord of the Flies Nov 18 2022 A plane crashes on a desert island and the only survivors, a group of schoolboys, assemble on the beach and wait to be rescued. By day they inhabit a land of bright fantastic birds and dark blue seas, but at night their dreams are haunted by the image of a terrifying beast. As the boys' delicate sense of order fades, so their childish dreams are transformed into something more primitive, and their behaviour starts to take on a murderous, savage significance. First published in 1954, Lord of the Flies is one of the most celebrated and widely read of modern classics. Now fully revised and updated, this educational edition includes chapter summaries, comprehension questions, discussion points, classroom activities, a biographical profile of Golding, historical context relevant to the novel and an essay on Lord of the Flies by William Golding entitled 'Fable'. The Tragical History of the Life and Death of Doctor Faustus Mar 10 2022 The Tragical History of the Life and Death of Doctor Faustus, commonly referred to simply as Doctor Faustus, is an Elizabethan tragedy by Christopher Marlowe, based on German stories about the title character Faust, that was first performed sometime between 1588 and Marlowe's death in 1593. Two different versions of the play were published in the Jacobean era, several years later. The powerful effect of early productions of the play is indicated by the legends that quickly accrued around them—that actual devils once appeared on the stage during a performance, "to the great amazement of both the actors and spectators", a sight that was said to have driven some spectators mad.

Writing Epigrams Apr 18 2020 Every poet is deeply influenced by the verse of other poets. This influence is particularly apparent in the way poets compose their poems, which all poets learn by carefully reading the poetry of their predecessors. Though the style that poets eventually adopt may be unique and formed by their own particular genius, certain features of their poems will nevertheless reveal, at least in part, those earlier poets who have been most important to the formation of their art. This work attempts to trace the progression of style in Greek and Latin epigrams from early inscription to the poems of Martial, by characterizing features of composition that are transferable from one language to another. Such aspects of style include the syntax of sentences that begin and end the poems, the use of vocatives and address, and the structure of the poems, that is whether they proceed with or without formal elements such as antithesis, logical argument, and parallel phrasing. The results of this analysis place on much stronger footing such often held but still controversial views, that short elegy played a large role in the development of Hellenistic epigram; that the poems of Catullus in elegiacs and hendecasyllables show fundamental differences in style; and that the poet most important to the development of the way Martial wrote his poetry was not Lucilius or Nearchus but rather Catullus. These conclusions help define more clearly the affinities of style and patterns of influence that were responsible for the form of the ancient epigram.

Nineteen Eighty-Four Apr 11 2022 "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime.

Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

The Secret Sharer Apr 30 2021 "The Secret Sharer" takes place on a sailing ship in the Gulf of Siam (now the Gulf of Thailand), at the start of a voyage with cargo for Britain. The date is probably in the 1880s, when Conrad was at sea himself. In common with many of Conrad's stories, it is narrated in the first person. The narrator is the ship's young captain, whose name is never given. He is unfamiliar with both his ship and his crew, having joined the ship only a fortnight earlier, and unsure of his ability to exert his authority over the officers and crew who have been together for some time. He makes the point several times that he is the "stranger" on board. After being towed downriver (presumably from Bangkok) by a steam tug, the ship is left at anchor near a group of small barren islands a few miles off shore, waiting for wind to begin its voyage. An incoming ship is anchored similarly a couple of miles away, awaiting a tug to go upriver. That night, the captain, being restless, unusually takes the watch. As the only man on deck in the small hours of the morning, he sees that a man has swum up to the ship's side. The naked swimmer is hesitant to talk or come on board, but seems pleased to discover he is speaking to the captain. Once on board, the man introduces himself as Leggatt and he and the captain find a natural rapport, almost as if Leggatt were the captain's other self, especially as the captain has now fetched some of his own clothes for Leggatt to wear. Still on deck, Leggatt explains that he was the First Mate of the other ship, but was placed under arrest after being accused of murdering a crew member. The victim was a disobedient bully. During a storm which nearly sank their ship on their voyage here, Leggatt was physically wrestling with the man to make him to pull a rope when a freak wave threw them both against a bulwark and the man was killed. Leggatt, a "stranger" on the other ship just as the captain is on his, would certainly face the gallows on landing. However, he escaped his locked cabin and swam between islands to reach the narrator's ship. Though the captain could, and by all the rules should, arrest Leggatt, he instead leads him to concealment in his cabin. The captain has no plan yet, and hiding Leggatt seems impossibly difficult, given that his cabin is regularly serviced by his steward, the problem of food, a captain's movements being conspicuous to all, and the long voyage ahead. In the morning the captain of Leggatt's ship arrives by boat to inquire if the escapee has been sighted. Our captain, not a natural liar, manages to bluff through, but is left terrified as to what his own officers make of his strained behavior....

Dark Mirror Aug 15 2022 In this epic science fiction adventure, an unlikely pair of brilliant researchers team up in Northern Israel to probe the ruins of Tel Hazor. Twenty-three-year-old scholar Hannah Aston has extensively studied Near Eastern History and Biblical Archaeology her partner, Seijung Ford, is intended to be the next great genius of applied physics and engineering. As they explore the underground passages and tunnels beneath the ruins, their watches suddenly stop as a figure stands in the light in front of them. Without warning, the two researchers are immersed in a world where Val Anna, a displaced girl from the early twentieth century, becomes a scapegoat for travelers from other worlds locked in an ancient war. An heirloom artifact transports her back to the Auriga, a spacecraft buried deep beneath the Canaanite city of Hazor, and Val Anna must confront Kal-Nergal, a Mesopotamian slave-boy who has become a sorcerer. As Kal-Nergal attempts to use his special powers to jeopardize mankind's survival for the sake of revenge, Val Anna must try to thwart his plan and, in the process, may destroy her only way home.

Questions Nov 25 2020 This book synthesizes and integrates 40 years of research on the semantics of questions, and its interface with pragmatics and syntax, conducted within the formal semantics tradition. A wide range of topics are covered, including weak-strong exhaustiveness, maximality, functional answers, single-multiple-trapped list answers, embedding predicates, quantificational variability, concealed questions, weak islands, polar and alternative questions, negative polarity, and non-canonical questions. The literature on this rich set of topics, theoretically diverse and scattered across multiple venues, is often hard to assimilate. Veneeta Dayal, drawing on her own research, brings them together for the first time in a coherent, concise, and well-structured whole. Each chapter begins with a non-technical introduction to the issues discussed; semantically sophisticated accounts are then presented incrementally, with the major points summarized at the end of each section. Written in an accessible style, this book provides both a guide to one of the most vibrant areas of research in natural language and an account of how this area of study is developing. It will be a unique resource for the novice and expert alike, and seeks to appeal to a variety of readers without compromising depth and breadth of coverage.

Exile Jan 28 2021 The life of a human community rests on common experience. Yet in modern life there is an experience common to all that threatens the very basis of community—the experience of exile. No one in the modern world has been spared the encounter with homelessness. Refugees and fugitives, the disillusioned and disenfranchised grow in number every day. Why does it happen? What does it mean? And how are we implicated? David Patterson responds to these and related questions by examining exile, a primary motif in Russian thought over the last century and a half. By “exile” he means not only a form of punishment but an existential condition. Drawing on texts by such familiar figures as Dostoevsky, Tolstoy, Solzhenitsyn, and Brodsky, as well as less thoroughly examined figures, including Florensky, Shestov, Tertz, and Gendelev, Patterson moves beyond the political and geographical fact of exile to explore its spiritual, metaphysical, and linguistic aspects. Thus he pursues the connections between exile and identity, identity and meaning, meaning and language. Patterson shows that the problem of meaning in human life is a problem of homelessness, that the effort to return from exile is an effort to return meaning to the word, and that the exile of the word is an exile of the human being. By making heard voices from the Russian wilderness, Patterson makes visible the wilderness of the world.

Dark Ghettos Dec 07 2021 Why do American ghettos persist? Scholars and commentators often identify some factor—such as single motherhood, joblessness, or violent street crime—as the key to solving the problem and recommend policies accordingly. But, Tommie Shelby argues, these attempts to “fix” ghettos or “help” their poor inhabitants ignore fundamental questions of justice and fail to see the urban poor as moral agents responding to injustice. “Provocative...[Shelby] doesn’t lay out a jobs program or a housing initiative. Indeed, as he freely admits, he offers ‘no new political strategies or policy proposals.’ What he aims to do instead is both more abstract and more radical: to challenge the assumption, common to liberals and conservatives alike, that ghettos are ‘problems’ best addressed with narrowly targeted government programs or civic interventions. For Shelby, ghettos are something more troubling and less tractable: symptoms of the ‘systemic injustice’ of the United States. They represent not aberrant dysfunction but the natural workings of a deeply unfair scheme. The only real solution, in this way of thinking, is the ‘fundamental reform of the basic structure of our society.’” —James Ryerson, New York Times Book Review
