'It should be on every bookshelf.' John Gottman, author of *The Seven Principles for Making Marriage Work* \_\_\_\_\_ What if everything you thought you knew about your relationship was wrong? We all have faulty thinking when it comes to our closest relationships. Our default ways of thinking about love can blind us to what is good (and bad), lead us to find problems where they don't exist, and potentially sabotage even a great relationship. To prove it, and because it's fun, here's a pop quiz. True or False: - It's wrong to be selfish in a relationship. - If we're not having a lot of sex, we're not in love. - Men aren't as romantic

as women. - It's better to hold back and not argue about it. - You should never give up looking for your soulmate. *Stronger Than You Think* presents a refreshing and eye-opening new take on the relationship genre and gives readers a guided tour of the most common blind spots that plague relationships at all the major friction points. Blind spots are the key questions you aren't asking, the signals you're missing, the signs you aren't seeing, qualities that you're overvaluing, or the indicators you're misinterpreting. Award-winning professor, psychologist, and relationship scientist Dr Gary Lewandowski leverages his 20 years of experience to provide readers with a way out of this self-sabotage in this eye-opening look at their relationship's good side. Divided into three parts, the book provides a contemporary overview of the study of the temporal mind. It begins by

introducing the fundamental processes of time perception; how it can be measured, how it can be hindered, and to what extent it can be enhanced. It proceeds to explain how cognitive and psychological disorders, such as schizophrenia, ADHD, and anxiety can be linked to temporal dysfunction, and answers common questions that face us all: why does time seem to go faster as we age? How do our emotions affect our perception of time? How does our relationship with time differ from others? Providing comprehensive answers to the most pertinent questions of time perception, this book is an ideal companion for advanced students and researchers interested in the psychology of time. Do you find it difficult coming up with thought-provoking conversation starters or topics to discuss with your partner? Do you want to discover insightful questions that can lead to having deeper, exciting, and more meaningful conversations as a couple? Don't have much to talk about

except the day-to-day life activities? If you answered yes to any of these questions, you're not alone. We all want to have better, more substantial and engaging conversations everyday with our significant other. However, knowing where to start or the right questions to ask can be a challenge when things become routine. That's why we wrote Questions for Couples. We have used these open-ended questions to get to know each other more deeply, have better conversations, and improve our relationship. We believe these questions will do the same for your relationship too. No matter how good your marriage or relationship might be, communication difficulties can erode your closeness and create misunderstandings and conflict that aren't necessary. As uncomfortable or awkward as it might feel at first, meeting regularly with your spouse or partner to ask questions and learn more about each other safeguards your relationship from painful conflicts. The deep conversations these questions

foster also will create a new level of intimacy between you. Questioning is a powerful tool for mutual understanding. I use probing questions as a personal coach to help clients uncover their deeper desires, needs, and fears. A strong question prompts us to search within to uncover the answer, leading to profound moments of self-awareness and inner growth. Within a love relationship, mutual questioning provides these same benefits, but also it allows each partner to participate in the awareness and growth of the other. More important, by actively listening to your partner's responses without judgment or defensiveness, you understand more about his or her motivations, fears, pain, longings, and frustrations. Questions to Build Intimacy If you're feeling distant from your partner or spouse, and even if you're not, try taking some time to talk about your answers to the following questions the next time you find yourselves relaxing on the couch or finally

stumbling into bed, even if you just go through one or two here and there. You may find that the frank discussions that can result will help you and your partner grow closer and get to know each other even better. Anyone who's in a relationship should know some good questions for couples.

...Because communication is essential to a healthy relationship, with couples who talk regularly enjoying the benefits of a deeper, more intimate and connected relationship. By taking the time to consider important questions for couples, you can strengthen your connection to your partner and avoid unnecessary arguments from misunderstandings. -Why are relationship questions so important? Driven by a single-minded ambition to help women make the right choices (including, for instance, avoiding men like the stepfather he grew up with), he also spent six months conducting in-depth interviews with 100 black men from all

different walks of life. The answers he received are seldom heard outside of sports bars and men's locker rooms. Here was the uncut truth about how men really feel about relationships. What makes them commit. What makes them leave. What makes them stay. What makes them fall in love... Darren knew that he had struck gold. All that had been missing from his previous research was the raw sincerity of individual people. Finally, he had all the material he needed to live up to his standard of writing. The result is *Fact The Facts: The Uncut Truth That Will Change Your Love Life Forever*, a comprehensive guide to dating and relationships, written specifically for an audience of educated black women. To get the best answer-in business, in life-you have to ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet

often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and "beautifully." In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of

"Why," "What if," and "How" queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life. Have you been unlucky in love and are tired of the romantic roller coaster ride? Are you wondering if you should even try anymore? Do your relationships often leave you in a luxury suite at the Heartbreak Hotel? Do you want to understand why you make bad relationship choices? Is it time to move on but you don't know how? If the answer to any of these questions is YES, then you will find the answers you need as you answer these 37 Questions! You will learn about: Your relationship patterns Lessons learned from your past relationships Relationship sustainability and functionality Your expectations and deal breakers Your motivations How to choose partners wisely And most importantly - HOW to stop your relationship pain. Are You Ready for a New Relationship? These 37 Questions Will Help

You Decide! is a guide that will help open your mind and steer you toward the successful relationship that your soul and mind have been waiting for. When asked if they are ready for a relationship, many people will proclaim from the mountaintops, "Yes! I am ready!" But if you ask them what sacrifices they are willing to make for a successful, fulfilling, nurturing relationship, the story changes rapidly. Most people don't want to make changes or adjustments. They want a new partner to accept or adjust to the way they are, complete with all of their issues, childhood trauma, previous relationship residue, and baggage of every size, shape and color. However, starting a new relationship without addressing the past and preparing yourself for a new kind of relationship will most likely produce a relationship with the same outcome as your previous relationships. To have a new kind of relationship, you may have to be a new kind of you. If you stay the same,

expect the same. This book will gently guide you in a new direction to open your thinking and address your issues. It will help you clearly identify your wants and needs and address your past in a positive and meaningful way. Tools will be provided to help you easily recognize your relationship patterns, analyze your past relationships, understand what contributions you make to relationship dysfunction, learn how to make a good relationship choice, and realize how to know what you want and get it. With this knowledge, you will become a better you and make informed choices so that you don't keep dating the same guy/girl with a different name. In order to attract a more compatible partner, you must be able to recognize Mr./Ms. Wrong before you try to make him/her Mr./Ms. Right. Finding a mate and committing to a relationship is one of the most important decisions anyone can ever make. There are few things that will affect the trajectory of your life more

than the person you choose to partner with or marry. To get it all, you have to give it all. Great relationships don't just happen as a fluke; they take work, work and more hard work. Work that will provide a great reward when you find "your happy" with the right person. Before you invest your time, energy and emotions, you have to make sure the relationship you are giving your all to is the right one. Additionally, you have to ask yourself where you want to go in life and whether the mate you chose will serve as a hindrance or a help. If you have the wrong mate, he/she can prohibit you from achieving some of your goals. Are you ready for a relationship? This is a question that requires absolute honesty, consideration and self-reflection.
