Beginning with the fundamentals of carpentry work within a domestic construction setting, this book outlines which tools are required, and examines their care and proper use before covering the interpretation of technical drawings. It goes on to explain a wide range of first-fixing operations prior to plastering, and second-fixing operations after plastering. Each chapter covers the subject in great detail, with step-by-step illustrations and text to provide the reader with a complete picture of the sequence of work required to carry out each job. *Goring's Manual of First and Second Fixing Carpentry* has been updated to take recent developments in the building trades into account, and is also fully up to date with current industry best practice. Printed in full colour throughout, new chapter has been incorporated to address the sharpening of traditional saws. The breadth of coverage and easily accessible 'how-to' approach makes this book an ideal resource for apprentices taking NVQs and those following Construction Awards within the Wood Occupations from City & Guilds/Construction Skills. The technical detail and practical focus ensures that this book will be a vital purchase for all students, and an essential reference for any experienced carpenter or joiner. What is innovation and how should it be measured? Understanding the scale of innovation activities, the characteristics of innovative firms and the internal and systemic factors that can influence innovation is a prerequisite for the pursuit and analysis of policies aimed at fostering innovation. This work examines the two apparently contradictory concepts of Altruism and Economic Rationalism in the context of Health and Welfare Delivery. It is multi-disciplinary and employs a number of disciplines including: Sociology, Economics, Theology, Religion, Ecclesiology, History and Political Science.
